EDUCATION

Gauhati University, Gauhati — B.Tech in Information Technology. 2024 - Present

EXPERIENCE

Software Engineer — HNB Group Pvt. Ltd.

June, 2026 - Present
Assam, India

- **Built and deployed a job portal from scratch**, developing core features across the frontend and backend; the platform is currently used by **500+ users**.
- Designed and developed an **internal team management platform from scratch**, implementing workflows for task management, employee operations, and team coordination which is used in the company's **day-to-day operations**.
- Developed **backend APIs, database models, authentication, role-based access control**, and responsive user interfaces for production systems.

PROJECTS

StockPilot — Inventory & Sales Management

React.js, Node.js, Express.js, PostgreSQL, JWT | Live Demo | GitHub

- Built a full-stack inventory and sales management platform with product tracking, sales recording, low-stock alerts, customer management, and business analytics.
- Designed REST APIs, PostgreSQL data models, JWT authentication, and responsive dashboards for managing inventory and monitoring business performance.

Open Source Contributor — Ditto

TypeScript, Node.js, Vitest | GitHub

- Contributed **2 merged pull requests**, improving **language-registry test coverage** and **implementing a GitHub URL parser with comprehensive test cases.**
- Worked through the open-source development workflow including GitHub issues, pull requests, testing, code review, and maintainer feedback.
